The report of the grand lodge officers was read.

Secretary's Report.

He was followed by Grand Secretary Fred C. Robinson of Dubuque, Ia. The success of the past year has exceeded all expectations and has been most gratifying. Fifty-three new lodges have been added to the long list and those lodges already in existence have been materially strengthened by large accessions in membership, giving today 988 lodges and a total membership of 206,000. With "quantity" of membership is coming "quality." The successful year just past is the result of the efforts exerted throughout our wide domain.

Some Large Lodges.

Last year there were six lodges, with a membership of over 1,000. Now we have seven such lodges. Louisville dropped below the thousand mark, while Cincinnati and Spokane were added to the list. The numerical strength of the seven lodges of 1,000 or more is as follows: Louisville, 1,400; Detroit, 1,385; Philadelphia, 1,384; Chicago, 1,383; Spokane, 1,382; Cincinnati, 1,381; and Louisville, 1,380. The cash on hand May 1 was \$118,600; the total assets, \$189,272; the liabilities, only \$4,656. The total surplus was \$184,616, against \$189,192 in 1904.

Financial Statement.

The financial statement of the grand lodge, B. P. O. E., presented by the grand treasurer, John K. Tenor of Charlestown, Pa., says that cash is on deposit to the amount of \$111,059. This sum is distributed in four funds—the general fund containing \$44,000; the home fund containing \$12,250; the emergency fund containing \$4,084; and the reserve fund containing \$50,000. During the year \$10,000 has been added to the reserve fund. The per capita tax is 10 cents, paid by the entire membership, now over 200,000. The maintenance of the Elks' home at Bedford City, Va., for indigent Elks, has been paid, and \$5,000 for indigent Elks, has been paid, and \$5,000 for indigent Elks, has been paid.

RIGID INQUIRY
BEING MADE

Guilty Will Suffer for the Riot at Havana.

BURY BODY OF POLICEMAN
ARTILLERYMEN SHOWED LACK
OF DISCIPLINE.

Havana, July 11.—No further deaths have resulted from the conflicts here last night between Cuban artillerymen and civilians. Of the score of persons reported injured most of them sustained slight contusions inflicted by policemen's clubs. The first conflict occurred between artillerymen and policemen and the toughs who infest the locality. Then the company of soldiers who were sent to restore order murdered five soldiers under arms. The official who ordered the company of soldiers to that duty, also is endeavoring to find out who is responsible for the lack of discipline. The lieutenant in command of the artillery company says he was ordered to the scene by a telephone message from Mr. O'Shea, who had previously arrived at the police station to investigate the participation of their men in the first conflict.

Lack of Discipline.

General Rodriguez and other military men are ashamed of the lack of discipline shown by the manner in which twenty-five soldiers under arms were so easily excited into attacking the police. The soldiers have long persisted in regarding the police as their rivals. The body of the policeman, Amparo Hernandez, was escorted to the cemetery by 100 policemen, and the municipal band followed by government and city officials. The artillerymen are talking of taking vengeance against the police. The secretary of the interior has ordered that no artilleryman be permitted to leave Havana fortress, and a score of those charged with the shooting have been imprisoned. The report of the board of governors recommending the abandonment of the Elks' home at Bedford, Va., was turned over to the grand trustees on the same subject recommended turning the control of the home over to the government.

ONE HUNDRED AND TWENTY VICTIMS

Explosion of Fire Damp in Welsh Coal Mine—Wailing Widow and Orphans Waiting at the Mouth of the Pit.

CARDIFF, Wales, July 11.—An explosion of fire damp in No. 2 pit of the United Nations Colliery company at Wattlestown, in the Rhondda valley, the center of the great Welsh coal fields, this morning, is believed to have resulted in the loss of at least 120 lives.

The explosion was followed immediately by the belching of clouds of smoke and dust from the pit shaft, in which 150 men were working. The force of the explosion wrecked the machinery at the mouth of the pit. All communication with the doomed men in this direction is completely cut off. No. 1 shaft, adjoining, has ordinarily afforded communication with No. 2. The 800 men in No. 1 and the few who escaped from No. 2 were drawn up.

Attempt at Rescue. A rescue party descended, but its work was seriously impeded by the foul air and the falling masses of earth dislodged by the explosion.

Heroic efforts have been made for hours to reach the entombed men, but tonight the absence of all sound from the interior of the mine told the tale of the worst disaster that has taken place in South Wales since 1894.

SEPARATION OF CHURCH AND STATE
NOW BEFORE THE FRENCH SENATE

Paris, July 11.—The appointment today by the senate of a committee on separation is another step toward the final adoption of the bill dividing church and state, already passed by the chamber of deputies. The bill, which was passed by the chamber of deputies, divides the question now centers in the action taken by the senate and fears are expressed that the long and fierce fight which characterized the debate in the lower house will be renewed. Neither the adherents nor the opponents of the bill are entirely satisfied with it as it stands. Partisans of the concordat recognize that the measure, if passed, will place early in 1906. Therefore, the senate is expected to act during the month of July 13 to Oct. 15, in order to avoid any delay in the passage of the bill.

LEGISLATION NEEDED TO PROTECT
LIFE INSURANCE INVESTMENTS

Newburgh, N. Y., July 11.—Former Governor Odell, upon being asked whether he had seen the evidence secured by Superintendent Hendricks of the Equitable matter published in the New York World today, replied that he had. When his attention was directed to an editorial in the same paper, he said that any inference that he had been concerned in the preparation of the report was absolutely without foundation. Continuing, he said: "Subject Was Discussed. 'At a meeting with the governor in Albany just prior to the preparation of his message to the extra session of the legislature this subject was discussed. I believe that the people expect legislation which will remedy the existing evils and restore the confidence of the policy-holders who have so much at stake. My observation has led me to believe that the connection of the Equitable Life and other insurance companies with subsidiary corporations, such as trust companies and banks, is dangerous, and that a necessity exists for a more complete separation of the two. Then the connection of insurance companies with other institutions often leads them to disregard the obligations which are incumbent upon them as officers of insurance companies, for the purpose of advancing the interests of such companies and syndicates through which real estate and other speculative schemes are worked, and the legislation should be framed and enacted to prevent such acts on the part of insurance officials in the future.'"

Should Be Regulated.

"Further, it seems to me that the scope of investments should be regulated and restricted. There is no reason why insurance companies should not be safeguarded in the same, or a similar manner, as savings banks. I am confident that if insurance investments were restricted and safeguarded there would come a great volume of money for legitimate real estate investment, and it would be a great benefit to the community. 'I believe further that it would be a great mistake on the part of the Republican organization and the majority in the legislature to refuse such legislation. The connection of insurance companies with other institutions often leads them to disregard the obligations which are incumbent upon them as officers of insurance companies, for the purpose of advancing the interests of such companies and syndicates through which real estate and other speculative schemes are worked, and the legislation should be framed and enacted to prevent such acts on the part of insurance officials in the future.'"
